

Booking Med Travel

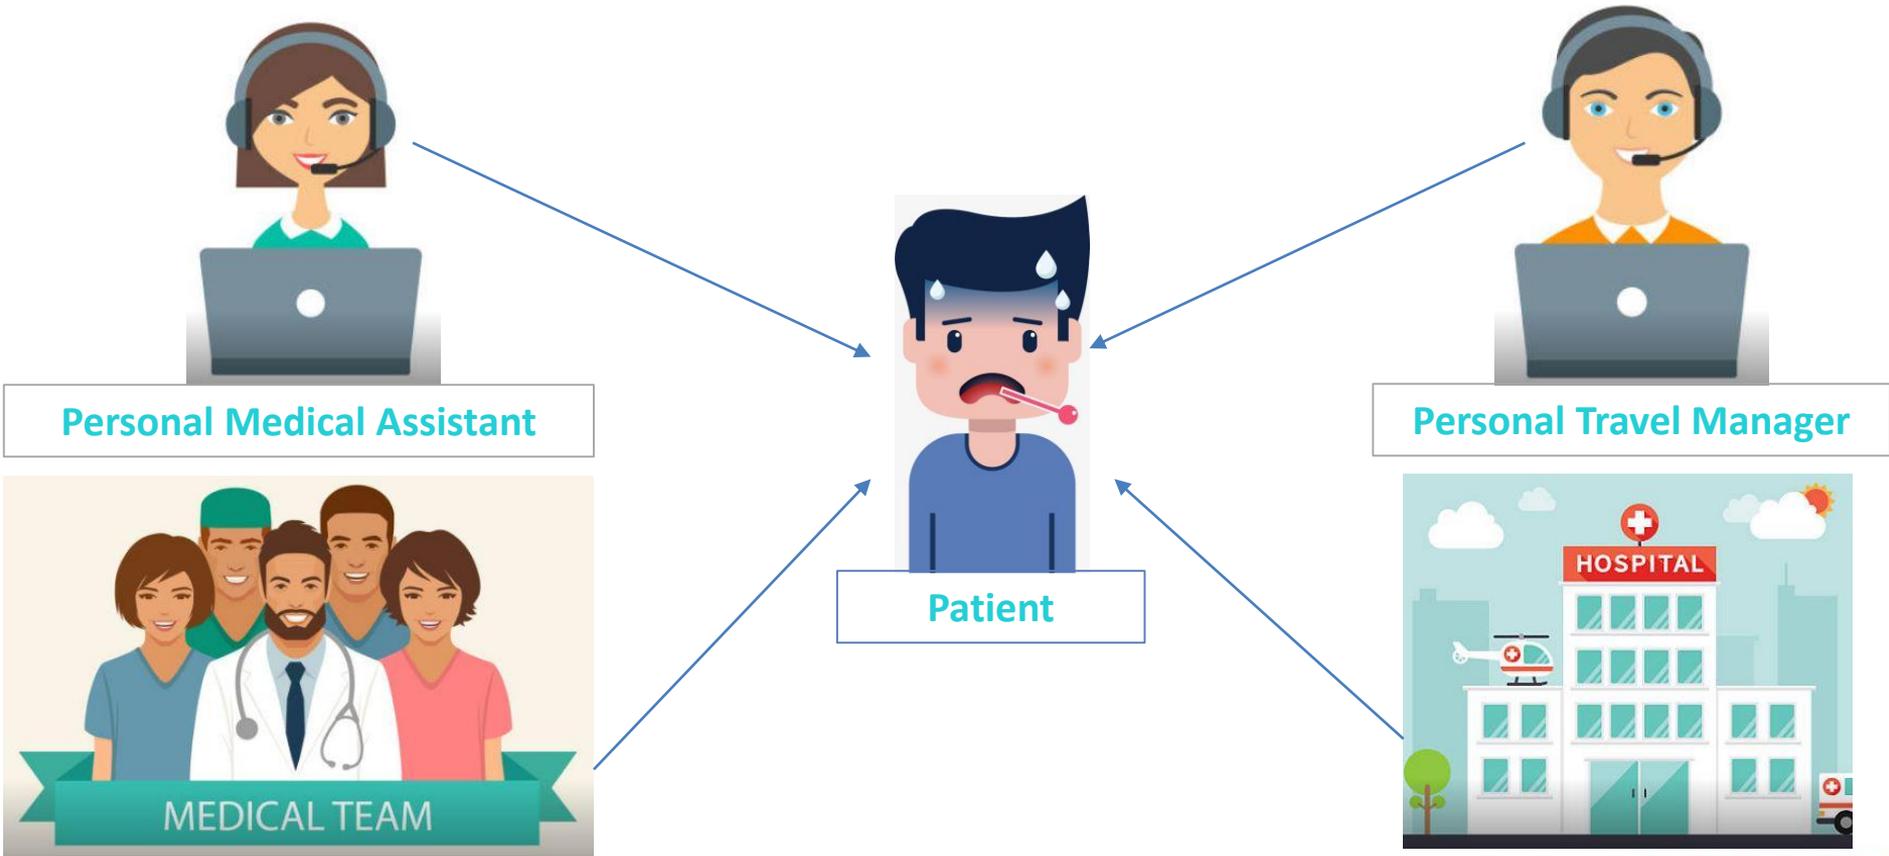

Most advanced medical care at your fingertips

Booking Med Travel is a rapidly growing online platform for booking of medical programs abroad. The website serves as the most advanced online portal for booking of the treatment in leading health care centers around the globe. The website consists of highly accredited healthcare centers from all over the world and also gives a choice to the patients to compare and choose the best hospital and treatment plan for themselves. The company also serves as an international office for some of the world's leading hospitals.

Our Mission

The mission of the company is to bring the most advanced medical care with most affordable price at fingertip of everyone.

Scheme of work

How it works

Search for diagnosis/treatment on our website and choose from the list of world's top rated hospitals with best doctors

After choosing the hospital that matches patient's requirements submit request by filling up the form and clicking on "Send Request" button

Your personal medical assistant will contact you within 24 hours and will gather all the necessary information and pass it to our Medical team for further analysis

Our Professional Medical Team analyzes all the data, formulates individual treatment plan, and selects a Specialist Doctor that particularly matches patient's case

Your personal medical assistant will explain to you all about the treatment plan and about the chosen hospital and specialist. Once you approve the proposed program, he/she will book the medical program and will be in contact with you 24/7 during the medical trip.

Booking Med Travel team serves as a guide for the patients starting from their request on our website to their coming back home after the treatment

The company provides following services to the patients:

- Personal Assistant
- Individual treatment plan
- Translation of Medical documents
- Visa support
- Flight booking
- Hotel reservation
- Medical transfer (Airport-Hotel-Clinic-Hotel-Airport)
- Medical Interpreter

We believe in “Freedom of choice” that’s why we give our patients full right to abstain from any service provided by the company

Advantages for patients

•User-friendly interface

- Our user-friendly interface makes it easier and faster to find, choose and book treatment all over the globe.

•Accredited healthcare centers only

- The list of healthcare centers listed on our website are thoroughly checked according to the international quality standards before they are listed on the website by a specialized department in our company

•Individual treatment plan

- Our Professional Medical Team analyzes all the data, selects a Specialist Doctor and formulates an individual treatment plan for each patient

•Payment directly to the hospital

- All the medical programs are paid directly in the hospital before or after the completion of the treatment program. (condition applied)

•Lower cost

- As we have direct contracts with the hospitals we get high discounts in terms of the cost of an individual medical program. Thus, the patient might receive up to 25% lower price through us as compared to direct contact with the hospital.

•Flexible and quality service

- We not only book treatment but also provide patients with full care with our quality service and flexible service packages.

Advantages for Hospitals

- **Free International medical platform**

- We provide free international platform for hospitals and doctors to offer their treatments to international patients.

- **Free marketing internationally**

- We provide free international marketing and international searchability to our partner hospitals and doctors.

- **No empty request**

- We provide hospitals and doctor only those patient who are ready to travel

- **No external resources required**

- We provide complete range of non-medical services required during the treatment process.

- **No commission from hospitals**

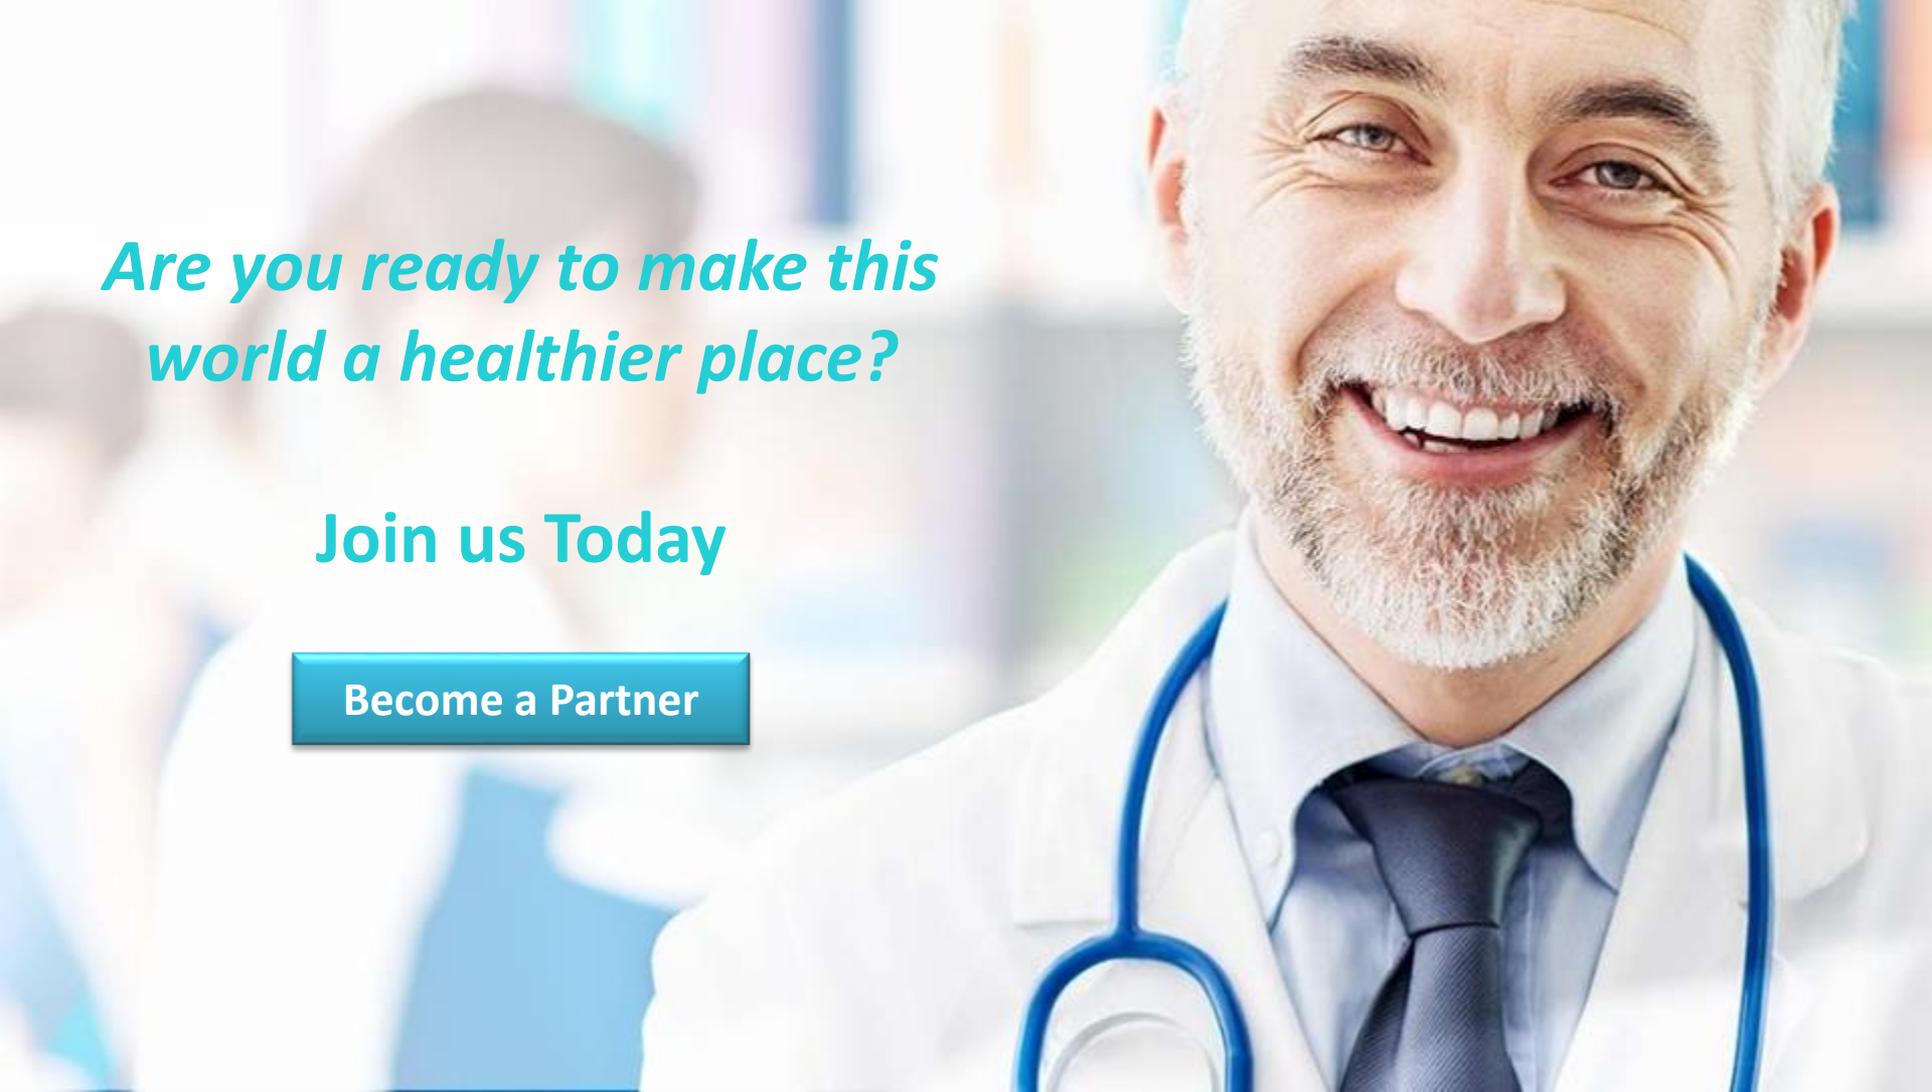

- We don't take any commission from the hospitals to make treatment affordable for the patient

- **Support in time of patient conflict**

- We provide full support to the hospital and patient to solve any misunderstanding or conflict between them

- **Commitment**

- Our Team is fully committed to formulate good relationships with hospitals and doctors
